The SC connector is a fiber optic connector with a push-pull latching mechanism which provides quick insertion and removal, while ensuring a robust connection, thanks to its “pull-proof” concept.

The SC connector is frequently used in datacom or telecom applications, especially for FTTH applications.

The SC connector range is available in PC and APC polishing. A duplex configuration is also available by using a fully removable duplex brace. The identification of the optical channel (A or B) can be easily changed by reversing the clip cover.

The RADIALL SC connector has something more than the competitors: it can be tuned to 1 of 6 positions to optimise the insertion loss for random connections (the tuning technique consists of rotating the optical ferrule to reduce the offset between fiber cores, IEC 61300-2-41)

BENEFITS & FEATURES

• Easy mounting and installation

- Radiall has a proprietary secure bonding to protect the floating mechanism during the resin injection process
- APC 8° pre-angled version is available to accelerate installation on the field
- Latched push-pull system for quick insertion and removal
- Color coding

• High performance

- High precision alignment with proven 2.5 mm zirconia ferrule
- Tested according to GR-326-CORE Telcordia and IEC 60874 specifications
- One-piece tuneable connector® to optimise fiber's cores alignment when connecting (6 positions)

• Secure Connexion

- Pull-proof design
- Radiall has improved the crimping reliability thanks to a mini metallic tube protecting the fiber while reducing stress and ensuring excellent cable retention
- Different protection boots available with exclusive shapes to tighten the cable and maintain optical performances even when the cable is bent or pulled

• Flexible

- Available for MultiMode, single mode, PC, UPC and APC terminations
- Can be assembled in duplex configuration with a removable clip

APPLICATIONS

- Telecommunication networks (FTTA, Ethernet, Sonet/ATM, fiber channel, FTTH)
- Broadband subscriber networks
- CATV
- Fiber management systems
- Active device termination
- Datacom LAN

OPTICAL CHARACTERISTICS

	SingleMode PC	SingleMode PC «tuned»	SingleMode APC	SingleMode APC «tuned»	MultiMode PC
Wave length	1310-1550 nm				850-1310 nm
Insertion Loss (against a reference patchcord)					
Mean	< 0.20 dB	< 0.20 dB	< 0.20 dB	< 0.20 dB	< 0.20 dB
Standard deviation	0.14 dB	0.14 dB	0.15 dB	0.15 dB	0.08 dB
Insertion Loss (Random)					
Peak	< 0.8 dB, 97%	< 0.6 dB, 99%	< 0.8 dB, 97%	< 0.6 dB, 99%	-
Average	0.25 dB	0.13 dB	0.25 dB	0.15 dB	-
Return Loss	PC > 30 dB UPC > 50 dB		APC > 60 dB		PC > 20 dB

Insertion Loss Against a reference patchcord: IEC 61300-3-4 Method B

Insertion Loss Random: IEC 61300-3-34

Return Loss: IEC 61300-3-6

Note: The optical performances also depend on the fiber and/or cable construction.

MECHANICAL CHARACTERISTICS

	Cable diameter 0.9 mm	Cable diameter 2 & 3 mm
Cable retention	7N	100N
Mechanical endurance	500 matings	

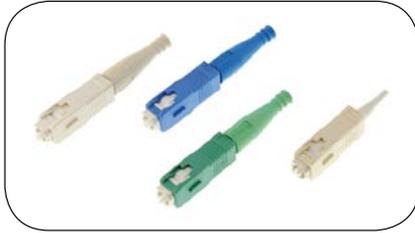

ENVIRONMENTAL CHARACTERISTICS

Operating temperature	-40°C / + 85°C
Storage temperature	-40°C / +85°C

INTERNATIONAL STANDARD DOCUMENTS COMPLIANCE

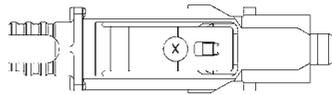

- GR-326-CORE Telcordia specification
- IEC 61754-4 Fiber optic connector interfaces (SC connector family)
- IEC 61300 Fiber optic interconnecting devices and passive components - Basic test and measurement procedures

SIMPLEX SC CONNECTORS

The simplex connectors are delivered with straight boots, dust caps and crimping accessories, except for the level "0" categories which enable users to configure their connectors according to the application.

⁽¹⁾ The level "0" is supplied without boots or crimp sleeves. To complete your connector assembly kit, please refer to the "accessories" section.

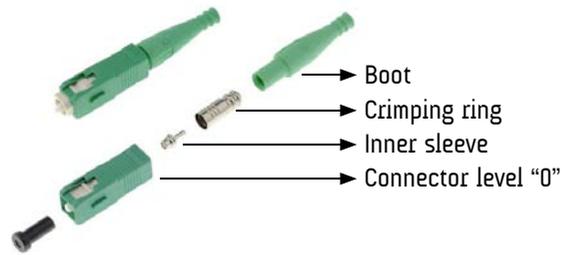

For other cable diameters, please consult the Radiall sales team.

Flexible configuration of simplex connector using level 0 part numbers

For 0.9 mm cable diameter

For 2 or 3 mm cable diameter

To get more information on how to find the corresponding part numbers and connector kit combination, please refer to the SC kit configurator section.

APC 8° PRE-ANGLED SIMPLEX CONNECTORS

The APC version of the SC connector is also proposed in a pre-angled end face version for a quick polishing in the field and ultra-low back reflexion.

Cable diameter	Figure	SingleMode APC Pre-angled 125µm - Green	Packaging
0.9 mm		F728 132 100	100
3 mm		F728 132 700	100

DUPLEX SC CONNECTORS

Thanks to Radiall's SC removable duplex clip, a simplex connector can be changed at any time to a duplex connector. The clip is fitted after cabling.

Select 2 Simplex SC connectors and a duplex removable clip to create your duplex SC connector.

The identification of the optical channel (A or B) can be easily changed by reversing the clip cover.

To select a clip, please refer to the "accessories" section.

ADAPTERS

The SC adapters are available for snap-in or flange screw-in mounting.

Color coding remains the same as the connector coding:

- SingleMode PC: *Blue*
- SingleMode APC: *Green*
- MultiMode PC: *Beige*
- MultiMode Pc with OM3 fiber: *Aqua*
